

# BUSTING CHICKEN FARMING MYTHS

*Learn The Truth About Chicken Farming in Canada*

**MYTH:** Chickens are raised in cages.

**FACT:** Meat chickens, also known as broilers, are free-run. Free-run means chicken roam freely throughout clean, spacious, well-ventilated barns.

**MYTH:** Chickens are fed hormones and steroids.

**FACT:** Added hormones and steroids are NOT allowed. They have been banned since the 1960s.

**MYTH:** Chickens are factory farmed.

**FACT:** There are no factory farms in Canada. 97% of farms in Manitoba are family owned and operated.

*Chicken farmers proudly provide chicken you can trust!*
